

Living in Wilhelmshaven

Dear prospective students,

in principle, the range of rooms and apartments available for students in Wilhelmshaven is better than in other university locations. Rents are much lower than in southern Germany or in large cities such as Hamburg or Berlin, for example. The supply of available rooms near the university is also better.

Nevertheless, it is important that you look for a place to stay in good time. You should not wait until shortly before the start of your studies. As soon as you have decided on your place of study and have an acceptance letter from Jade University, you can start looking for accommodation. The earlier you start, the better. But don't worry: Even if you get your study place late, you will still manage to find a room. It may be a little further away from the university, but that's no problem with the SemesterTicket.

Private housing market:

The office for student services (Studentenwerk) disposes of a list with addresses of private landlords with (un)furnished rooms and apartments as well as of shared apartments looking for new roommates. You can ask for this list via email: buero.whv@sw-ol.de

Besides, there is a online form to search for rooms established especially for international students:

<https://www.studentenwerk-oldenburg.de/en/internationale-studierende/privatzimmervermittlung-fuer-internationale-studierende/wohnungsangebote-suchen.html>
